

**Notification of the Ministry of Agriculture and Cooperatives**  
**On The Prescribing of Additional Animal Epidemics under Animal Epidemic Act B.E.2558 (2015)**

-----

By virtue of the definition of “epidemic” under Section 4 and Section 5 of Animal Epidemic Act B.E.2558 (2015), The Minister of Agriculture and Cooperatives, therefore, announced as follows:

Clause 1. This Notification shall come into force on and from the date of its announcement in the Government Gazette.

Clause 2. These following diseases are included as epidemics under Section 4 of Animal Epidemic Act B.E.2558 (2015):

- a. Epidemics in poultry:
  - (1) Fowl cholera
  - (2) Avian infectious bronchitis
  - (3) Avian infectious laryngotracheitis
  - (4) Duck viral hepatitis
  - (5) Gumboro disease or infectious bursal disease
  - (6) Turkey rhinotracheitis
  - (7) Marek’s disease
  - (8) Egg drop syndrome
  - (9) Chicken infectious anaemia
  - (10) Infection with parvovirus in goose and Muscovy duck
- b. Epidemics in ruminants:
  - (1) Contagious bovine pleuropneumonia
  - (2) Bovine viral diarrhoea or mucosal disease
  - (3) Trichomonosis
  - (4) Enzootic bovine leucosis
  - (5) Lumpy skin disease
  - (6) Bovine ephemeral fever
  - (7) Bovine malignant catarrhal fever
  - (8) Infectious bovine rhinotracheitis
  - (9) Contagious caprine pleuropneumonia
  - (10) Scrapie or Transmissible spongiform encephalopathy
  - (11) Bovine babesiosis
  - (12) Bovine anaplasmosis
  - (13) Theileriasis or Theileriosis
  - (14) Schmallenberg virus infection
  - (15) Akabane disease
  - (16) Blackleg
  - (17) Caprine arthritis encephalitis (CAE)
  - (18) Contagious ecthyma or orf
  - (19) Maedi-visna
  - (20) Peste des petits ruminants (PPR)
  - (21) Q fever
  - (22) Pseudotuberculosis
  - (23) Ovine pulmonary adenocarcinoma or Jaagsiekte
  - (24) Infection with bovine respiratory syncytial virus
  - (25) Infection with parainfluenza-3 virus

- c. Epidemics in monogastric animals:
- (1) Porcine reproductive and respiratory syndrome (PRRS)
  - (2) African horse plague or African horse sickness
  - (3) Equine piroplasmosis
  - (4) Contagious equine metritis
  - (5) Horse mange
  - (6) Equine viral arteritis (EVA)
  - (7) Equine encephalomyelitis
  - (8) Venezuelan equine encephalomyelitis
  - (9) Dourine
  - (10) African swine fever
  - (11) Transmissible gastroenteritis
  - (12) Enterovirus encephalomyelitis or Teschen disease
  - (13) Porcine epidemic diarrhoea
  - (14) Equine rhinopneumonitis
  - (15) Epizootic lymphangitis
  - (16) Glanders
  - (17) Cysticercosis
  - (18) Porcine circovirus disease (PCVD)
- d. Epidemics in Bees:
- (1) American foul brood disease or American foulbrood disease
  - (2) European foul brood disease or European foulbrood disease
  - (3) Black disease
  - (4) Acarapisosis or acarine disease
  - (5) Varroosis
  - (6) Tropilaelaps disease
  - (7) Nosemosis
  - (8) Chalkbrood disease
  - (9) Sacbrood disease
  - (10) Braula disease
  - (11) Infestation of *Aethina tumida*
- e. Epidemics in multispecies
- (1) Ebola virus disease
  - (2) Mycoplasmosis
  - (3) Pox
  - (4) Chlamydiosis
  - (5) Melioidosis
  - (6) Influenza virus type A
  - (7) Tetanus
  - (8) Trypanosomiasis
  - (9) Toxoplasmosis
  - (10) Streptococcosis
  - (11) Campylobacteriosis
  - (12) Bluetongue
  - (13) Pseudorabies or Aujeszky's disease
  - (14) Japanese encephalitis
  - (15) Paratuberculosis
  - (16) Rift valley fever

- (17) Vesicular stomatitis
  - (18) West Nile fever
  - (19) Infection with Hendra virus infectious disease
  - (20) Middle East respiratory syndrome (MERS - CoV)
  - (21) Herpes virus infectious disease
- f. Epidemics in aquatic animals:
- (1) Crayfish plague
  - (2) Koi herpesvirus disease (KHV disease)
  - (3) Chytrid fungus disease or Infection with *Batrachochytrium dendrobatidis*
  - (4) Gyrodactylosis or Infection with *Gyrodactylus salaris*
  - (5) Xenohaliosis disease of Infection with *Xenohalotis californiensis*
  - (6) Infection with salmonid alphavirus
  - (7) White spot disease
  - (8) Taura syndrome (TS)
  - (9) Tetrahedral baculovirus
  - (10) Bonamiosis
  - (11) Poxvirus in crocodile
  - (12) Perkinsosis
  - (13) Furunculosis
  - (14) Megalocytivirus disease
  - (15) Infection with *Marteilia refringens*
  - (16) Infection with ranavirus
  - (17) Viral haemorrhagic septicaemia (VHS)
  - (18) Viral nervous necrosis (VNN)
  - (19) Infection with yellow head virus
  - (20) White tail disease
  - (21) Red sea bream iridoviral disease (RSIV)
  - (22) Epizootic ulcerative syndrome (EUS)
  - (23) Epizootic haematopoietic necrosis (EHN)
  - (24) Acute hepatopancreatic necrosis disease (AHPND)
  - (25) Hepatopancreatic parvovirus disease (HPV)
  - (26) Spring viraemia of carp (SVC)
  - (27) Necrotising hepatopancreatitis (NHP)
  - (28) MBV disease or Spherical baculovirus
  - (29) Infection with abalone herpesvirus
  - (30) Infectious pancreatic necrosis (IPN)
  - (31) Infectious hypodermal and haematopoietic necrosis (IHHN)
  - (32) Infectious haematopoietic necrosis (IHN)
  - (33) Infectious myonecrosis (IMN)
  - (34) Infection with infectious salmon anaemia virus (ISA)

Given on this 24th day of December B.E.2558 (2015)

-Signed-

(General Chatchai Sarikulya)

Minister of Agriculture and Cooperatives
